### NOTE:

\*\* symbol ‘Y, b, P’ use the Hildebrandt method of stitching for variegated, over-dyed, hand-dyed thread. Stitch along the outside of the area (#1), (perimeter) and then keep stitching (#2), in an ever smaller pattern until the space is completed (#3). This will give each piece a unique and organic look. \* Note: the symbol (k) found in the example below may vary from your pattern symbol, as this is a generic example only.

Happy Stitching from *MarNic* Designs Canada
